### **Presentation**

BOT-1 Emergency Management and the COVID-19 Response

### **Background Information**

As an unprecedented communicable disease incident, the national response to COVID-19 has impacted everyone's way of life. As a University, we have taken extraordinary measures to protect the health and safety of our students, faculty, and staff. These actions have necessitated the activation of emergency plans and required communication and coordination across all divisions of the University.

Emergency Management Director Zach Smith will provide a general overview of the UNCG emergency management program and the University's response to COVID-19.

Visit the [Emergency Management website](#) for more information about the Office of Emergency Management, and the [UNCG COVID-19 webpage](#) for updated information on the University's response to COVID-19.
