# Action Item

FAC-3 Tate + Gate Capital Improvement Project – Approval to Move Forward for Full Authority at the January 19, 2022 BOG Meeting

### **Background Information**

Per recent delegation by the Board of Governors under the Board's Construction Task Force, Advance Planning is authorized by the University's Board of Trustees. Once the scope and budget have been more clearly defined, the Capital Request is to then be brought to the Board of Governors for approval. (Refer to attached email from Miriam Tripp dated March 4, 2021).

At the March 16, 2021 meeting, the UNCG Board of Trustees approved the Capital Request for Advance Planning for the Tate + Gate Capital Improvement Project.

The scope of this project is for a new multi-purpose cultural arts venue located at 842 West Gate City Boulevard. The project is envisioned to be a maximum of 20,000 GSF. The goal of this project is to foster an active partnership between UNC Greensboro with the surrounding local and regional arts community. The project will include demolition of the existing building, construction of a flexible performance space, gallery, instructional and practice rooms, and office and administrative space; a retail component, as well as underground parking to support the needs of the venue. This location also provides an important and prominent gateway entrance to campus.

The budget for this project has been more clearly defined and the project has moved into the Program Verification Phase.

#### **Recommended Action**

That the Board of Trustees of The University of North Carolina at Greensboro approve moving forward with a request at the Board of Governors January 19, 2022 meeting for full authority on a total project estimate of \$10,333,336 for the Tate + Gate Capital Improvement project.

Sandra-

Confirming our phone conversation, the two capital project requests you were preparing for the April BOG meeting can be handled under a recent delegation by the BOG coming out of the Board's Construction Task Force. Under this delegation, advance planning is authorized by a university's Board of Trustees with the capital request coming to the Board of Governors for approval after scope and budget have been more clearly defined (at SDs).

We would establish the advance planning authority for each project in Interscope based on your submission of the CI-1 and OC-25 estimate forms and the documentation indicating your BOT approval. Please call if you have questions as you work through this new process.

Stay safe and well!

Miriam
