ATH-2 Fall Sports Update from Director of Athletics

Background Information

Director of Athletics Brian Mackin will provide updates on various Fall Sports programs.

The fall season is now in full swing. Men's and women's golf had two invitational events in September. The men's and women's soccer teams are deep into their season and having strong results. Building on their regular season SoCon title in 2021, the men's soccer team has cracked the top 20 in the country. We have had numerous athletes in multiple sports receive SoCon player of the week recognitions in the first month of competition. A freshman men's soccer player, Stephen Hernandez, received National Team Player of the Week after his first collegiate goal and hat trick in an exciting win over Coastal Carolina. Volleyball has had several top 2 finishes in tournaments already and the team is chasing another SoCon title. The Cross Country team finished strong in their two events in September. Men's and women's tennis competed well in several invitational tournaments this fall. Basketball is now beginning practice and gearing up for what looks to be a very promising year.
